KARTHIKEYAN M

PROFESSIONAL SUMMARY

Information Security & Cybersecurity Professional specializing in Security Governance, GRC, Risk Management, VAPT, SIEM, Incident Management, Vulnerability Management, and Regulatory Compliance. Experienced in implementing and maintaining security controls aligned with ISO 27001, PCI DSS/CPP, NPCI, GSMA, and global security standards, with a strong focus on enterprise risk reduction, audit readiness, cyber resilience, and protection of critical information assets. Open to GCC and international opportunities.

KEY SKILLS

Information Security & GRC: GRC | ISMS | Security Governance | Security Risk Assessment | Risk Treatment | Security Policies | Standards & Procedures | Audit Readiness | Compliance Management

Security Compliance & Auditing: ISO 27001 | PCI DSS | GSMA Compliance | Internal & External Audits | Security Audits | Log Analysis

Cybersecurity & Risk: VAPT | Vulnerability Management | SIEM | Firewall Security | Endpoint Security | Cyber Resilience | Business Continuity |

Incident & Crisis Coordination

Security Operations & Leadership: Security Infrastructure | Technical Operations | Security Leadership | Stakeholder Management

WORK EXPERIENCE

Assistant Manager – Information Security

Jan '26 - Present

Giesecke+Devrient MS India Pvt. Ltd.

Chennai

- Led **Information Security Governance, GRC & ISMS** initiatives, developing and enforcing security policies, standards, procedures, controls, and awareness programs aligned with organizational and regulatory requirements
- Managed **Security Operations & Infrastructure**, overseeing SIEM, Firewalls, Endpoint Security, Threat Monitoring, Log Management, VAPT, Risk Assessments, Incident Management, and Change Management to strengthen the overall security posture
- Directed **Security Audits** and led security teams, vendors, and stakeholders, driving audit readiness, risk treatment, finding remediation, incident response, business continuity, and compliance with **ISO 27001, PCI CPP/DSS, NPCI & GSMA** requirements

Assistant Manager - Information Security

May '22 - Jan '26

Hitachi Payment Services Pvt Ltd

Chennai

- Managed a **10+ member Security Operations team** within a 24/7 SOC, overseeing BAU operations, customer engagement, onboarding, knowledge transfer, performance management, and technical capability development
- Led **SIEM implementation and operations**, including log source onboarding, connector configuration, dashboard monitoring, security investigations, detection rule tuning, false-positive reduction, and incident troubleshooting
- Strengthened **Incident Response & Threat Detection** through incident response playbooks, tabletop exercises, ethical hacking simulations, and security governance initiatives aligned with **PCI DSS & ISO 27001**

Team Leader - Information Security

May '20 - Apr '22

Hitachi Payment Services Pvt Ltd

Chennai

- Led a **6+ member Security Operations team** in a 24/7 SOC, managing BAU operations, customer engagement, knowledge transfer, team coordination, and security monitoring activities
- Integrated **Threat Intelligence Platforms (TIPs) with SIEM** to enhance threat visibility, alert enrichment, security monitoring, and incident response efficiency

Information Security Analyst	May '17 - Apr '20
Hitachi Payment Services Pvt Ltd	Chennai
- Monitored and investigated SIEM Alerts & Firewall Traffic to identify suspicious activities, analyze potential threats, and initiate security incidents for timely investigation and response - Performed Windows Server Patch Verification & Security Compliance checks, issuing remediation advisories and coordinating escalations to ensure timely vulnerability mitigation - Developed and maintained Vulnerability Management Dashboards to provide centralized visibility into security posture, vulnerability trends, risk levels, and remediation priorities	

Customer Support Engineer	Feb '14 - Apr '17
Hitachi Systems Microclinic	Chennai
- Installed, configured, and maintained IT Systems & Infrastructure, including hardware, software, operating systems, and end-user environments to ensure reliable system performance - Provided Technical Support & Troubleshooting for hardware, software, network, and user-related issues, resolving incidents within defined service requirements - Managed System Maintenance & Remote Administration using Kaseya, including software updates, patching, and IT operations support across NIC Chennai Secretariat, Commercial Tax Office, and Hitachi Payment Services	

PROJECTS

CISSP Practical Cybersecurity, Risk & GRC Project – Fintech Environment

- Conducted **Information Security Risk Assessments** for a fintech environment, identifying **threats, vulnerabilities, control weaknesses, and business impact** across critical assets.
- Developed **Risk Registers & Asset Inventories** covering **asset ownership, classification, threats, vulnerabilities, risk impact, and security controls**.
- Performed **Risk Scoring, Control Effectiveness Assessment & GRC Gap Analysis** to identify **security and compliance gaps** and prioritize remediation.
- Developed **Risk Treatment Plans & Remediation Roadmaps** aligned with **business risk, control effectiveness, and security priorities**, strengthening **GRC, Security Governance & Cyber Resilience**.

CERTIFICATIONS

Certified Ethical Hacker (CEH v12) – EC-Council | Certified Payment Security Practitioner (CPSP) | Certified Security Operations Centre Practitioner (CSOCP) | Certified Web Application Security Professional (CWASP) | Generative AI for Cybersecurity – EC- Council | ChatGPT for Ethical Hacking – EC-Council | ISO 27001:2022 Lead Auditor – Mastermind

EDUCATION

BCA (Bachelor of Computer Application)	
Tamil Nadu Open University - Chennai	Jun ‘24
Diploma in Computer Technology	
Central Polytechnic Collage – Chennai	Apr ‘12

ACHIVEMENTS

- Reduced Unauthorized Access Risks by 30%** by implementing enhanced Critical Device Security Rules and strengthening access control measures
- Improved Incident Response Time and MTTR by 20%** by developing streamlined Incident Management Procedure.
